

# A thank you from Fathi!

A while back we've shared our experience at the Growing Futures project.

We've had a blast spending time on a day out with our learners.

What we didn't know is that one of the learners, Fathi, felt even more happy about the day out and decided to thank us via a Powerpoint presentation that he put together.

We are posting his work on YouTube to show everyone how happy he was with our day out.

He dreams of being an IT technician and it seems that he is well on his way to achieving it.

Thank you so much Fathi, it is a very nice gift and we hope everything goes well for you.
