

# ACH move on story, Girmay

Article by:

**Amy Chew**

## **Support Worker in Wolverhampton**

Our supported accommodation aims to help people towards resettlement in the UK, so it is always a cause for celebration when a tenant feels ready to move on from Ashley Community Housing and into independent accommodation. Having supported tenant Girmay upon his arrival to the UK to improve his English and to begin to settle into a new location and culture, the ACH Wolverhampton are happy to see Girmay moving out and into a house with friends in Cardiff.

We have some great memories supporting Girmay; he was always kind, polite and friendly to everyone he met. We are pleased that Girmay is leaving with good memories of us and, we feel that as much as Girmay got from us, we got much more from him. We were inspired by his ambition to be a nurse for the fact that he wanted to help people. ACH Wolverhampton will miss you and wishes you luck Girmay!

“I came to Ashley Housing in April 2016. I came to ACH because firstly I needed housing. I knew that ACH accommodation was better than others. It is good. I also wanted to learn language skills. I am much more confident speaking English now. My favourite memory at ACH was being in the English classes with Amy. I was able to learn and have fun.

I am now moving to Cardiff to live with some friends there. There is a company in Cardiff that I would like to start working with soon. Thank you for all your help.” – Girmay
