

Matrix Revolution

Ashley Community Housing is delighted to have been awarded the Matrix quality standard for information advice and guidance services following a three-day inspection during May. Both our training and support provision have been recognised as meeting the standard. We are justifiably proud that an area of outstanding strength was that:

“Staff demonstrate a high level of commitment to the ethos of the organisation. They are clear about the main aim of the Company, which is to enable refugees to move on to independent living and are highly motivated to help clients achieve this”

With our certificate covering both our training and refugee resettlement services we are able to demonstrate that we are a quality partner in every city where we work. Even more importantly passing at our first assessment demonstrates those we work with receive the best support and guidance available.

Achieving our Matrix certificate is a reward in itself as it acknowledges how much work and passion we put in to working with refugees and vulnerable people. We are now motivated to do even better in the future.

Thank you for the certificate and we hope to improve more and more over the coming months.

“The matrix Standard is a unique quality standard for organisations to assess and measure their advice and support services, which ultimately supports individuals in their choice of career, learning, work and life goals.”
