

# National Careers Contract

We are delighted to announce that we will be now working with *The National Careers Service* in order to help hundreds of our learners plan their future careers.

The new contract means that we will now be able to support over 1,000 learners a year in accessing better jobs for the future. Since 2008, we have already trained hundreds of tenants and members of the local community, so it is great to be recognised for our impactful work.

For those of you that don't know, *The National Careers Service* provides information, advice and guidance to help people make decisions on learning, training and work opportunities. Working closely with *Prospects*, Ashley Community Housing will be working to deliver a quality service that tenants and learners aren't always able to access.

The contract will also provide our staff with new tailored training and skills, enabling them to deliver an even better quality of service that is already in place throughout our Bristol branch. Support worker and trainer Naomi Gill stated:

***"I'm really excited to be working with The National Careers Service. This will be a great opportunity for our learners to broaden their horizons and access jobs which may normally seem out of reach."***

This service will be available at our Bristol branch from April 1st 2016 and we hope to expand the service to our Birmingham and Wolverhampton branches in due course.

If you are interested in any information regarding our employability training please feel free to contact us:
