

# It's Awards season at ACH

Article by:  
Matthew Rogers  
Marketing & Communications Officer @ ACH Bristol

We're excited to reveal that we have been recently nominated for several prestigious awards.

The Voscur are Bristol's Social Impact Awards, celebrating the fantastic work of Bristol's voluntary, community and social enterprise sector. And we are excited to be nominated for the Batook Pandya Award Inclusion. The winner will be announced on November so we have our fingers crossed and will keep you informed of the result next month!

The MTM Awards has become established as the premier Asian and Ethnic Minorities event in the South West. They were created to give a platform and a voice the Asian, Black and Ethnic Minorities to showcase their potential, excellence and achievements in Business, Community, Arts and Entertainment. We've been nominated for the Community Group Award, which celebrates organisations that make a committed and proactive contribution to the enhancement and benefit of the community. Voting closes on Sunday 20th November and you can vote for us at <http://www.mtmawards.co.uk/vote-now/>

The CorporateLiveWire Innovation and Excellence Awards 2017 honour and celebrate those businesses and firms who are creating a brighter tomorrow. They give recognition to businesses that are transforming their respective industries and the standard-bearers of excellence by continually setting industry trends as well as showing significant advances in terms of innovation and improvement.

Over the past 12 months they invited over 100,000 business professionals, the general public and the Corporate LiveWire subscribers to nominate associations, companies & individuals based on their recent achievements. This year saw an unprecedented number of nominations, providing strong competition in every category and the judging panel had the unenviable task of selecting those firms and professionals most worthy of an award.

And we're extremely pleased to announce that have been shortlisted for Social Housing Provider of the Year! Winners are officially announced in February 2017, so we'll let you know how we do.

We were also a finalist in the Business Leader Awards 2016 for the Business in the Community Award. Run by Business Leader Magazine these Awards are one of the most prestigious and celebrated business event of the year in Bristol and the South West. The Business in the Community Award is for businesses that have made a significant positive impact within the community and to the lives of individuals within them. Rachel (Support Team leader) and Eileen (Vice-Chair) attended the ceremony and were pleased to network with other fantastic local businesses. We were thrilled to be a finalist and be recognised for our community work in the region, but unfortunately were pipped to the post by Alliance Homes!
