

Online Centre

Across the UK on 15 - 28 February, will see hundreds of UK online centres - and other organisations - hold events in community venues across the country. At Ashley Community Housing we are a registered UK online centre and are joining in the campaign to get more people within the community online and learning!

We're reaching out to those in your community without basic digital skills or who want a bit more confidence using technology, and help them start gaining the skills they need to make the most of an online life. Our 'Job Club' is open every Tuesday in Bristol from 1pm-4pm where our friendly volunteers can teach you how to get online, apply for jobs and learn valuable skills. As well as that, we have IT classes running every Thursday from 1pm-3pm at our learning branch in Bristol. So let's all get online this February and learn valuable skills!
