

UK Housing Awards High Commendation

On Tuesday 26th April members of our Birmingham team attended the nationally-recognised UK Housing Awards where we were thrilled to be Highly Commended for 'An outstanding approach to meeting specialist housing needs'. We were just one of a few organisations at the event to receive a high commendation, with judges praising our support for the resettlement needs of refugees across the country.

This recognition comes at a time when our branches across Bristol, Birmingham and Wolverhampton have been working tirelessly to house, support and train our tenants/learners. Our numerous success stories are testament to this hard work and commitment from our team who have all helped shape Ashley Community Housing into the organisation it is today.

The awards evening as a whole was a great opportunity to connect with other housing professionals and gain insight into initiatives across the country which are positively impacting communities. We would like to thank Inside Housing and the UK Housing Awards panel for recognising our achievements.
