

Wolverhampton launch event

On Wednesday 27th January we celebrated the launch of our new Wolverhampton branch with a brilliant community event at Dunstall Hill Community Centre. The event brought together our new Wolverhampton tenants and introduced them to staff working in the local area. The launch was also well-attended by members of staff from our Bristol and Birmingham offices.

The event was a great opportunity for our new tenants to share stories about their journey to Wolverhampton and their ambitions for the future, whilst asking questions about ACH and the support and training we provide. Amongst this productive chit-chat some delicious traditional Arabic food was served including tasty rice dishes, a variety of fruit, and some spicy marinated-meats.

Once the food was served members of our Bristol, Birmingham and Wolverhampton teams spoke passionately about the ACH resettlement journey - the presentations focused on our housing, support framework and training provisions. We would like to thank our Housing Officer Asma and all the other staff and volunteers who made this event happen for their hard work and dedication - it was a great event
