

A thank you to English My Way

In 2014 Ashley Community Housing was the only provider to be selected in Bristol to be a part of the *English My Way* program. Over the past two years we have come a long way, with 180 learners enrolled onto the course with a completion rate of 80%. *English My Way* has not only provided learners with a basic level of English (below entry one), but has also allowed them to engage with a further study, or find employment.

The program has now come to an end, with the last cohort of learners finishing within the next few weeks. We have had such a fantastic response from our learners regarding the course, with one former learner stating:

“When I didn’t speak English, I didn’t understand anything. Now I speak with everyone, it feels very good”

Ashley Community Housing has greatly enjoyed working with *Tinder Foundation* in delivering the *English My Way* project and seeing the huge benefits it has had not only with our learners, but also the communities that we work with.
