### **What did you do before coming to ACH?**

I have just finished my degree at the University of the West of England where I studied Media and Journalism – I am currently awaiting my final grade and I graduate on the 21st July.

### **Why did you decide to come to ACH?**

I am keen to define and develop my skills within a marketing career, and I would love to do this alongside working for a worthy cause such as ACH.

### **What project are you working on for us?**

I am working as part of the marketing team as the Content Marketing Intern with hopes to extend this after the initial internship is up.

### **What is it that you want to achieve?**

I want to help make a difference somehow during my time here, that being getting someone's story out to change perceptions of refugees or to drive different strategies to raise awareness of the company itself.

### **What are you hoping to gain from Ashley Community Housing?**

I want to get fully involved with all sides of the marketing and communications for ACH to gain invaluable skills and experience that will give me a great start to being newly graduated

### **What is your proudest moment in your career?**

Having only just started my career, I would have to change this to be what is my proudest moment in my life, which I guess would be completing university whilst running my own small cleaning business!
